Rule Manuals available
- **October 13, 2007**
Event Workshop at
Assumption College
- **March 15, 2008**
State Tournament at
Assumption College
(Snow date March 16)

How You Can Help

The long-time head coach at Coolidge Middle School has decided to step down, and will not be running a regional meet this year. So, I need a school to volunteer to run a practice meet so that we can continue to have two. Please contact me if you are interested!

SO News

We are trying a new system for the trial events this year. I would like a few schools to each run a trial event. Volunteers will get to pick the event, plan the activities, and judge the participants on tournament day.

This could be a project for some of your alternate team members to get them more involved with the tournament.

Trial event descriptions can be found here:

<http://www.soinc.org/events/trial/>

Regional Meets

Oak Middle School in Shrewsbury will be hosting a regional meet again this year. If you have never been to one, the regional meets are a great chance for your students to try out their skills on the events in fun atmosphere.

The meet will be held in January. We will announce the date and schedule of available events later in the fall.

Thanks to Oak Middle School for hosting this great event.

Registration Information

- Registration forms are due by October 13.
- The manuals will be here soon. They will be shipped to everyone who has registered as soon as I get them.
- For updated information check the MSSO web site:
